Jim Jones would like an update on the WPS schedule during the OPP General today at 4 PM. If possible, I would like to hear where things stand before then.

Bob, sorry to hear you are feeling crummy.

Thanks,

Bill

Kevin,

Please follow up with osha. Regarding schedule, should we sit down with BEAD and discuss? I think we had planned to move this into the 30 day review by mid june, but I understand that is unlikely

given the changes needed?

Let's chat if possible today.

Thanks,

Bob

**Subject:** FW: Worker Protection Standard for Agricultural Pesticides

Would FEAD please contact David Michaels' office and offer to provide an overview briefing along the lines of the one we did for USDA. If they accept, we can provide them the copy informally at or after the briefing. If they only want to see the draft rule, please tell them it is being revised based on some feedback from USDA and that we will send it to DOL for their informal review as soon as our revisions are complete.

Also, would you please give me an update on the status and schedule for moving the WPS rule to OMB.

Thanks,

Bill

David, Sounds good. I've copied Bill Jordan who can send you a copy of the draft proposed Worker Protection Standard rule. We are planning to submit to OMB later this month. During that process DOL will get the rule formally for review. See you next week.

Jim –

I've heard that EPA's Office of Pesticide Programs is working on a revision to the Worker Protection Standard for Agricultural Pesticides. Since it covers several issues in which we are involved (like Personal Protective Equipment and Hazard Communications), we would very much like the opportunity to take a look at it and, as appropriate, provide some input before moves too far forward.

Do you think that might be possible?

Thanks very much. I'm looking forward to lunch on the 12<sup>th</sup>.

David
